Towing is not permitted.

6.15 Storage

Storing items on vehicle roof is not permitted.

Free storage of luggage is available at all locations at owner's risk (not available for one way rentals).

6.16 Winterization

Each motorhome has to be winterized from November to April in Denver, Chicago, Boston, New York, Dallas, Atlanta, Seattle and Salt Lake City (rental location and period may vary depending on the weather and temperatures) to prevent freezing. This will include the water pipes, toilet, fresh water tanks, sink, shower, external shower, hot water heater and holding tanks. Winterization requires that water be drained from the fresh water tank, hot water heater and both waste tanks. Once the vehicle is winterized, no water can be put into the fresh water tank and it cannot be hooked up to the city water supply anymore. Therefore, **no** water at all is available in the motorhome. The toilet, however, can still be used as long as windshield washer antifreeze is poured down to rinse.

Pink RV antifreeze has been run through all the pipes and put into the black and grey tanks. If the renter removes this antifreeze and put water into the system, the tanks and pipes will crack. If this happens, he/she will be responsible for repairing these systems and any other damages caused by cracking pipes/tanks.

It is the renter's responsibility to have the vehicle re-winterized on the return trip (if de-winterized for a trip to an area with warmer temperatures). Upon return, if the renter presents us with a receipt for either winterization or de-winterization, we will reimburse him/her, up to a maximum of USD 75. If the renter does not have a receipt, we will keep the security deposit and charge him /her for any additional costs incurred in repairing damaged pipes, tanks, water heater, walls, floors etc.

Please inform your clients at the time of booking.

6.17 Baby / Child Seat

Due to applicable law, a baby or child seat must be attached in the rear of the vehicle, not in the front seats. [All Class C coaches are equipped with minimum one anchor for three-point child or baby car seat attachment.](#)

Dinette table may require lowering to install baby and child seats. The dinette table will only lower to seat level. Due to this other passengers will not be able to travel in the dinette area, if the dinette has been lowered.

6.18 General Conditions

All rentals are subject to the terms and conditions of the rental contract.

Prices, policies and conditions are subject to change without notice at any time.
